

Getting Energized by this One-of-a-Kind Business

Each month, Home Business Connection magazine features a notable home business in our MLM Company of the Month. This month, we've chosen CieAura, an up-and-coming home-business opportunity with truly revolutionary products that combine ancient health secrets with 21st century technology.

Have you ever experienced that dragging “post-lunch” slump, or even that “I’m-so-tired-but-can’t-fall-asleep” feeling? Or perhaps you have those nagging aches and pains that don’t seem to go away. Our fast-paced and unhealthy lifestyles have a way of hurting our bodies and draining our energy, even while our minds are still running the rat race late into the night.

Ancient civilizations had many secrets to health and relaxation that were gradually lost over the years, as modern practitioners began to develop complicated and expensive “scientific” methods for dealing with basic health issues. Fortunately, direct sales company CieAura has begun to uncover the lost secrets of health, packaging them in a way that works with our busy 21st century lifestyles.

An Extraordinary Product

CieAura’s revolutionary technology begins with a simple “chip” that is placed on the skin. It is not

transdermal, so nothing is absorbed directly into the skin. Instead, the chip simply acts as a conduit, or conductor, for energy that exists all around you.

What ancient healers understood is that the body communicates with and regulates itself through vibrations. When these vibrations become abnormal or out of sync, the result is disease, illness, or other problems. While there are numerous sources of these vibrations within the body, these internal vibrations can also be modified by outside sources.

CieAura Holographic Chips can function as this outside source. Transparent Holographic Chips are a safe and unique way to adjust and balance the body’s energy flow. And the results can be amazing: improved energy and stamina, a stronger immune system, a better night’s sleep, and a body that operates at peak performance.

Even Rick Barry, world-class athlete and former NBA superstar, has been using the chips. “I was skeptical at first, but I gave the chips a try,” he says. “I placed a pain chip on my left knee, which has been operated on four times. Much to my amazement and delight, the chips helped to alleviate the pain!”

The Time is Now

People who are “in the know” always make the big money. Just think of those who bought

Microsoft stock twenty years ago, who started working at Google and got stock options, or who saw the potential in Apple computers in the eighties. They all knew the value of getting involved before a product or technology explodes.

Yet most of us have never made money by investing in “the next big thing.” Still, every once in a while, something comes along that has the potential to explode. Many people

CieAura offers better sleep, more energy, and pain relief without drugs or chemicals.

who’ve seen what CieAura has to offer believe that this company holds the keys to a successful financial future. Pain relief, better sleep, and full-body wellness are all already billion-dollar industries—and CieAura combines them all!

“Finding the next industry giant in the pre-launch phase, before it’s too late, is like finding a needle in a haystack,” says Kenton Hendrix, an industry leader and trainer. “But I believe I’ve found it with CieAura. I have never been more excited about a product, a company, or a marketing plan than I am right now.” ■
